## The Griot

Village Historian and Storyteller  
3,000 B.C. — Present Day

Hello friends... I am your Griot. Since the earliest of times, Griots have served an important and respected role in African cultures. We are the official historians and storytellers who preserve our history by passing down family heritage information, life stories and events from one generation to the next.

As your Griot, I am your narrator and guide. I am like a time traveler, who will take you back in time.. hundreds and thousands of years to the great lands of NuBiah. Together, we will visit some of the greatest kingdoms of all time. The kings and queens who ruled these vast empires were the superheroes of their days, because they became enormously strong in specific values and principles. Join me on this adventure to the Land of African Kings and Queens!

The Griot voice is narrated by Roge Lewis.
